#### **Product Parameter of the Black Dustproof Rubber Wiring Harness Grommets For Car:**

①Product name: **Black Dustproof Rubber Wiring Harness Grommets For Car**

②Material: EPDM NBR Silicon or Can Custom

③Logo: Can Custom

④Size: Can Custom

⑤Can Custom: Black or custom

⑥Application: Automotive

⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc

⑧Delivery: 30 -50days after sample confirmation

⑨Sample: 25-30 days

⑩Payment: 30% deposit, 70% payment before shipment

⑪Package: PE bags, Cartons,Pallet

⑫Payment Terms: T/T,L/C and so on.

⑬Shipment Way: Vessel,Air,Express etc.

**Product Feature AND Application of the Black Dustproof Rubber Wiring Harness Grommets For Car:**

Dustproof rubber wiring harness grommets is the network main body of automobile circuit, and there would be no automobile circuit without wiring harness. Wire speeds are made up of wires, connectors, rubber pieces and wrapping tape.

**Automotive rubber wiring harness grommets** is a component that forms a connecting circuit after crimping the contact terminals (connectors) made of copper and wires and cables with plasticized pressed insulators or metal shells outside. Direct exposure of wire harness to humidity or high temperature environment will not only affect the transmission of wire harness signal, or even burn wire harness, resulting in safety accidents. Therefore, it is necessary to protect the automobile wiring harness.
